## What's on?

# Protected Area Management Planning Round 2 Consultation

The Nature Conservation Act requires the Minister, as soon as practicable after the dedication of a national park (scientific), a national park, a national park (recovery), a conservation park or a resources reserve or after the declaration of a nature refuge, a co-ordinated conservation or a wilderness area, to prepare a management plan for the area. Each protected area will be managed according to provisions of the plan.

A proposal to prepare a draft management plan must be advertised publicly and submissions invited from landholders, local governments, interested groups and persons including Aborigines and Torres Strait Islanders and members of the public. All submissions properly made must be considered.

A final plan must be consistent with the management principles for the area and specify management outcomes for the protection, presentation, and use of the area and the policies, guidelines and actions to achieve the outcomes.

The Minister for Climate Change and Sustainability has prepared draft management plans for the following areas:

- Auburn River National Park
- Mount Bauple National Park (Scientific)
- Narrien Range National Park
- White Blow Conservation Park
- Tarong National Park
- Djilgarin Conservation Park
- Jalum Conservation Park

These draft management plans are currently open for review and submission. If you or your club are current users of any of these areas, you are encouraged to provide comment to defend continuing trail usage. The closing date for submissions is **Monday July 19 2010**.

Copies of these plans can be found on the Department of Environment and Resource Management (DERM) website ([www.derm.qld.gov.au](http://www.derm.qld.gov.au)). Submissions can be made by:

email: [parkplans@derm.qld.gov.au](mailto:parkplans@derm.qld.gov.au) or by post to:
